

SHARKSKIN™

OVERVIEW

All construction professionals know the importance of a quality roof system. That is why so much research, time and effort goes into specifying and installing the right roofing product for every building.

The SHARKSKIN ULTRA™ is designed to ensure that quality roof installations are not short-changed by inferior "old-technology" asphalt felts. The state of the art in recent underlayment advances, SHARKSKIN ULTRA™ is 100% polypropylene product with a 12 month UV exposure rating. It is the toughest nailable polymer underlayment available.

Thermally stable with a melting point of 320° F, this high tensile strength reinforced product is approved as an alternate for inferior Type 15 and Type 30 roofing felts.

These days you can't afford to open yourself up to the potential liability of inferior roof underlayments. Give your customers the finest roofing system by starting with "The Ultimate Roof Underlayment". Specify SHARKSKIN™.

SHARKSKIN™
Ultra

SHARKSKIN™
Ultra **The Ultimate Roof Underlayment**

Developed to exceed industry standards for long term moisture protection!

Code Compliance

- AC188, AC48 & AC08*
 - ESR Report 1708
 - BOCA
 - SBCCI
 - Florida Building Code FL#8097
 - Exceeds ASTM D226
- *ICBO AC08 is specific for tile roofs only

SHARKSKIN™

The Ultimate Roof Underlayment *Ultra*

Benefits

High Tensile Strength

Will not blow off

Installs with 3/8" Roofing Nails

Does not require plastic caps

Slip-Resistant

Even in wet or dusty conditions

Light Weight

Easy to lift, load, and work with
48" x 250' rolls – 10 SQS
45 lbs. per roll approx.

12 Month UV Exposure Rating

Will Not Rot

Will not rot, dry out or become brittle

No Expansion/Contraction

Material remains stable

White/Grey Surface

Stays cool to work on and keeps buildings cooler during construction

Will Not Wrinkle

Does not absorb moisture

Will Not Scar or Melt

NO Sticky Mess
Withstands high Temperatures

Eliminates Slip Sheet

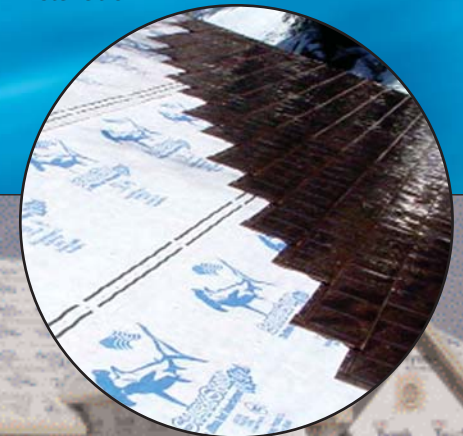

Serves as a slip sheet beneath metal roofs

The first and most important step toward an integrated roof system.

Description

Created specifically for all metal, slate and batted tile roof installations, SHARKSKIN ULTRA™'s patented design is the most important step towards an "Integrated Roof System™" in the harsh & abrasive roof environment. A roof system is only as good as its weakest link. SHARKSKIN ULTRA™ was designed to enhance the life of the roof. Ideally suited for use with all metal roof systems, real and synthetic slates, and batted and counter batted concrete tile applications. SHARKSKIN ULTRA™ has no equal when considering long-term moisture protection, durability and ease of installation.
