

SHARKSKIN™

OVERVIEW

All construction professionals know the importance of a quality roof system. That is why so much research, time and effort goes into specifying and installing the right roofing product for every building.

Sharkskin Ultra SA™ is a revolutionary new light weight self-adhered/peel & stick underlayment utilizing a high strength ultra-bond adhesive engineered to eliminate the drawbacks of traditional peel & stick membranes. Sharkskin Ultra SA™ combines the toughest high strength patented slip-resistant polypropylene based membrane in the industry with a state of the art adhesive layer that out performs the competition.

Sharkskin Ultra SA is thermally stable at high and low temperatures offering advantages year round for metal, clay and concrete roof tile, slate and asphalt shingle applications that are un-matched in the roofing industry for pitched roofing systems. Sharkskin Ultra SA creates a new category for self-adhered roof underlayments, and is PolyFoam™ approved for adhesive set tile and metal roof systems.

These days you can't afford to open yourself up to the potential liability of inferior peel and stick membranes. Give your customers the finest roofing system by starting with "The Ultimate Roof Underlayment". Specify Sharkskin Ultra SA™.

SHARKSKIN™

SHARKSKIN™
Ultra SA
ICE AND WATER SHIELD
NEW

The Ultimate Roof Underlayment

Engineered to exceed industry standards for long term moisture protection!

Benefits

Faster Installation

light weight 50lbs approx. roll

Faster Coverage

5 Square rolls w/split release liner

Faster Roof Installation

Bonds immediately to substrate

Slip-Resistant

Even in wet or dusty conditions

Cooler To Work With

White/Grey Surface stay cool & keeps building cooler during construction

12 Month UV Exposure Rating

Low to High Temp Rating

20 degrees and rising to 200 degrees+

No Expansion/Contraction

Remains stable with temperature changes

Eliminates Slip Sheet

Serves as a slip sheet beneath metal roofs

Sticks to Itself

No additional sealant/mastic required at vertical and horizontal laps

PolyFoam Approved

For adhesive set clay & concrete tile, and metal roof systems

Application Advantages

Can be installed direct to plywood or over mechanically fastened Sharkskin Comp™ or Sharkskin Ultra™ roof systems - Miami/Dade Approval pending

Long term warranties available

SHARKSKIN™ ICE AND WATER SHIELD

Ultra SA

The Ultimate
Roof Underlayment

The first and most important step toward an integrated roof system.

Description

Created specifically for all direct deck applied clay/concrete tile, metal, slate and asphalt shingle roof systems. Sharkskin Ultra SA™ is designed to protect homes and building from water intrusion due to high wind events such as hurricanes as well as providing secondary protection when the primary roof covering is lost due to hail, tornadoes, hurricanes and earthquakes. No self-adhered roof underlayment on the market provides the design application advantages of Sharkskin Ultra SA™ the only choice as part of a long term roof system warranty. Specify the "Ultimate Roof Underlayment", Specify Sharkskin Ultra SA™
